

# BON VOYAGE

BY JANET CLARE

JC 242 Globetrotter 95" x 95"

We didn't travel much as a family when I was little, but that didn't stop me day-dreaming about all the places I would go as soon as I got the chance.

Living in the UK means that exciting cities such as Paris, Rome and Berlin are all within reach and require little more than some saving and planning. Lucky me!

I wanted my 'Bon Voyage' collection to feel rose tinted and nostalgic, to have all the glamour, excitement and fun of travel with none of the airport delays.

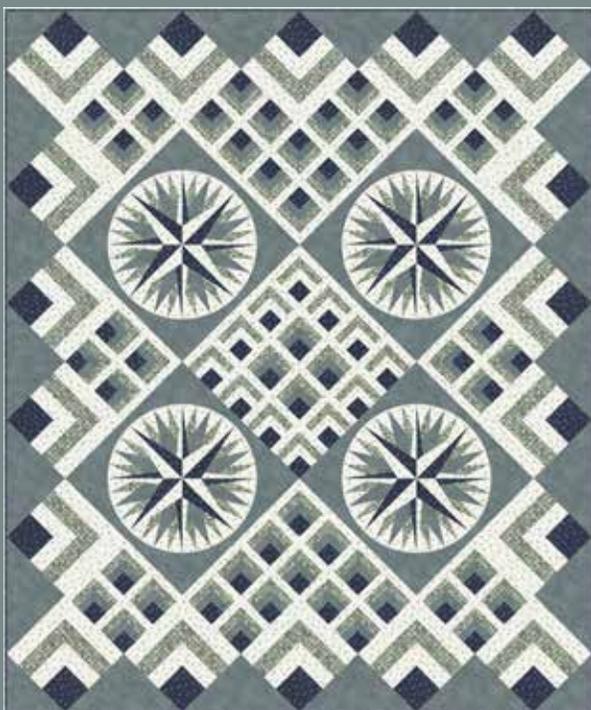

'Bon Voyage' is full of famous landmarks, the sights, maps, souvenirs, airmail letters and postcards home and is ready for you to stitch your memories and daydreams with.
